

27th July to 31st July 2026 | Time: 10:30 AM to 1:45 PM

Preamble:

The Teachers Training Program has been conceptualised based on a pressing concern in architectural education, the fate of documentation once it leaves the studio. Every year, students and faculty across India's architecture colleges produce measured drawings of settlements, recordings of oral traditions, and photographs of craft processes. This work is submitted, assessed, and archived. It rarely travels further.

The 5-day Online Training Program brings together architecture faculty and educators in an active exchange of methodology and editorial craft from fieldwork ethics to analytical writing and peer-reviewed publication. Each participant works with their own existing material throughout.

The larger objective is to empower faculty to recognize the scholarly value already embedded in their studios and act on it. Through the COA Documentation Series, this transformation from field record to published volume will contribute to a living repository of India's life, culture, and built environment, aligned with Indian Knowledge Systems and Viksit Bharat.
