Connect the Disconnect : Industry Responsive Architectural Education

Date : 7th to 11th September 2026 (Monday to Friday)

EoPT : 11th September, 2-3 pm

Last Date of Registration : 1st September 2026

Timings: 10.30 am to 1.45 pm

Preamble

Architectural education prepares students for professional practice, but a gap often exists between academic learning and industry expectations. Industry-responsive architectural education bridges this gap by aligning curricula, teaching methods, and skill development with current professional needs, enabling graduates to meet the evolving demands of the architecture profession. Ensuring graduates are better prepared for the evolving demands of the architecture industry.

Objectives

1. To align architectural education with industry and professional requirements.
2. To implement Outcome-Based Education (OBE) through measurable learning outcomes.
3. To enhance understanding of BIM, parametric design, and emerging digital technologies.
4. To promote interdisciplinary collaboration in design and problem-solving.
5. To foster innovation, research, and sustainable architectural practices.

Key Take-Away for Participants

Upon completion of the programme, participants will be equipped to align architectural education with evolving industry and professional requirements while effectively implementing Outcome-Based Education (OBE). They will enhance their understanding of emerging digital technologies, foster interdisciplinary collaboration, and integrate innovation, research, and sustainability into teaching and professional practice.

Programme Highlights

Day 1	Bridging Architectural Education and Professional Practice
Day 2	Outcome-Based Education for Industry-Relevant Learning
Day 3	Digital Transformation in Architecture: AI and Computational Design
Day 4	Innovation, Research, and Sustainable Architectural Practice
Day 5	Interdisciplinary Approaches to Design and Problem Solving
